Hi Hilary,

No, at the moment I need to be more instrumental in getting over to the graphic designer what I have in mind. I can, however, state that the teapot will most certainly be of a similar size and proportion to the writing in the artwork on the sign.

Kind regards

Graham

Hi Graham,

Do you have any images of the teapot design you have in mind, that would be fine or at least if it's clearly stated at this stage that it will be a tea pot of similar size artwork, that will also give you that bit of flexibility.

Kind regards
