ROOF LIGHTS

SK06
window

Optional glazing bars for standard VELUX roof windows

The requirements from conservation officers throughout the country differ and the black finish featured within our conservation roof window packages may not be required in your area.

Consult your local conservation officer and find out if you can create a traditional appearance by adding a glazing bar to a standard VELUX roof window with grey exterior. This will allow you to take advantage of all roof window styles and sizes available (except triple glazed roof windows).

Grey glazing bars are also available for standard VELUX roof windows

Recessed flashing

As well as the addition of a glazing bar, your local conservation officer may request that your roof window be installed deeper into the roof than can be achieved with a standard installation. To do this you should select a recessed flashing kit, which will provide a sleek, streamlined finish as less of the roof window protrudes above the roofline. Recessed flashings are also available with insulation and underfelt collars and are recommended for optimum energy efficiency.

Our full range of recessed flashings are available as part of our conservation roof window packages and help you comply with local conservation requirements.

To create your grey conservation package

- Select your preferred VELUX roof window. This includes white painted, white polyurethane, pine and all operating methods (pages 26-33).
- Choose a flashing kit suitable for your specific roof pitch and roofing material – a recessed flashing kit is recommended (pages 58-59).
- Use VELUX installation products for optimum energy efficiency (pages 56-57).
- Add one or more conservation glazing bars in the corresponding size to your roof windows. We recommend the use of two glazing bars for our wider roof windows such as SK06, UK04 and UK08.
- Grey glazing bar to match grey exterior (nearest RAL 7043) finish of standard VELUX roof windows.

The above named Authority being the Planning Authority for the purposes of your application validated 02 February 2017, in respect of proposed development for the purposes of **construction of single storey rear extension at 2 Redhill Cottages, Storr Lane, Hackness**, has considered your said application and has granted permission for the proposed development subject to the following condition(s):

1. The development hereby permitted shall be commenced before the expiration of three years from the date of this permission.
2. The development hereby permitted shall not be carried out other than in strict accordance with the following documents:

Document Description	Document No.	Date Received
Plan & Elevations as Proposed	2016/102/2B	02 February 2017

or in accordance with any minor variation thereof that may be approved in writing by the Local Planning Authority.
3. The roof of the development hereby permitted shall be clad in natural slate to match the roof of the existing building in terms of materials, colour and course height and shall be maintained in that condition in perpetuity unless otherwise agreed in writing with the Local Planning Authority.
4. No work shall commence on the timber cladding of the development hereby permitted until details, including the design, fixing and finish of the timber cladding including samples if so required have been submitted to and approved in writing by the Local Planning Authority. The materials used shall accord with the approved details and shall be maintained in that condition in perpetuity unless otherwise agreed with the Local Planning Authority.
5. All new window frames, glazing bars, external doors and door frames shall be of timber construction and shall be maintained in that condition in perpetuity unless otherwise agreed in writing with the Local Planning Authority.
6. No work shall commence on the installation of any rooflights in the development hereby approved until full details of the proposed rooflights have been submitted to and approved in writing by the Local Planning Authority. The rooflights shall be conservation style rooflights and shall be installed in accordance with the approved details and maintained in that condition in perpetuity unless otherwise agreed in writing with the Local Planning Authority.

Conditions (Continued)

7. The rainwater goods utilised in the development hereby permitted shall be coloured black and shall thereafter be so maintained in that condition in perpetuity unless otherwise agreed in writing with the Local Planning Authority.
8. Any fascias on the development hereby approved shall be coloured or treated to match the adjacent timber cladding, unless otherwise agreed in writing with the Local Planning Authority.

Informative

All bats and their roosts are fully protected under the Wildlife and Countryside Act 1981 (as amended by the Countryside and Rights of Way Act 2000) and are further protected under Regulation 39(1) of the Conservation (Natural Habitats etc.) Regulations 1994. Should any bats or evidence of bats be found prior to or during development, work must stop immediately and Natural England contacted on 0300 060 3900 for further advice. This is a legal requirement under the Wildlife and Countryside Act 1981 (as amended) and applies to whoever carries out the work. All contractors on site should be made aware of this requirement and given information to contact Natural England or the Bat Conservation Trust national helpline on 0845 1300 228.

Reasons for Conditions

1. To ensure compliance with Sections 91 to 94 of the Town and Country Planning Act 1990 as amended.
2. For the avoidance of doubt and to ensure that the details of the development comply with the provisions of NYM Core Policy A and NYM Development Policy 3, which seek to conserve and enhance the special qualities of the NYM National Park.
3. For the avoidance of doubt and in order to comply with the provisions of NYM Core & Policy A and NYM Development Policy 3 which seek to ensure that building materials
4. are of a high quality and compatible with the character of the locality and that the special qualities of the National Park are safeguarded.
5. For the avoidance of doubt and in order to comply with the provisions of NYM Core to Policy A and NYM Development Policy 3 which seek to ensure that the appearance of
8. the development is compatible with the character of the locality and that the special qualities of the National Park are safeguarded.

Explanation of how the Authority has Worked Positively with the Applicant/Agent

The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against all material considerations, including planning policies and any representations that may have been received and subsequently determining to grant planning permission in accordance with the presumption in favour of sustainable development, as set out within the National Planning Policy Framework.
