Dear Mrs H Saunders

With regard to the above application. We full support the moving of the gate to form a pull in to the field. Exiting our drive is difficult and if a vehicle was parked in front of the gate this limited our vision of oncoming traffic making it dangerous. The gate way has relieved this problem.

The erection of 2 polytunnels is in keeping with the use of the land and the nature of the business connected to the field. Mr and Mrs Tildsley, the owner of the land is a hard working young man who is very conscious not to intrude on his neighbours or cause any problems to his neighbours .

We fully support this application and totally support Mr Tildsley with his use of the land.

Yours Mr and Mrs Johnson
