Subject: NYM/2015/0864/FL- condition 20 regarding barn owls

Hi Hilary

I would like to follow up a condition that was included in application NYM/2015/0864/FL Old Joiner's Shop, Wrench Green, Scarborough. Condition 20 states that work shall be carried out in accordance with mitigation measures set out in sections 8.1-8.4 of the bat survey- this includes temporary and permanent provision for barn owls. The temporary provision involves erecting an owl box on a nearby tree and that "measures have been taken to allow barn owls to re-access the building".

Do you know if these measures have been put in place? The condition makes reference to the Bat Scoping Survey Report (January 2016) however, it is the barn owls that are of most concern in this application.

Thanks
Kate
