Historic England Advice

Thank you for consulting Historic England on the verification document supplied in relation to Condition 3 of planning permission NYM/2014/0780/FL.

The archaeological adviser to North York Moors National Park Authority is the correct person to verify the condition as it states that the written scheme of investigation shall be approved by the Local Planning Authority. In addition to the planning permission the works also require Scheduled Monument Consent (SMC). This has not yet been applied for, and the works should not commence until this is in place. The information supplied in relation to Condition 3 does cover the majority of the requirements which will form part of any future SMC.

Recommendation:

Historic England recommends that; the applicant should apply for Scheduled Monument Consent for the necessary works and that; Condition 3 of the planning application should be determined in accordance with national and local policy guidance, and on the basis of your specialist conservation advice.

It is not necessary for us to be consulted again. However, if you would like further advice, please contact us to explain your request.
