Dear Sir,

Proposed: verification check of **Condition 4** of planning approval NYM/2015/0676/MEIA
 Location: Dove's Nest Farm & Haxby Plantation, Sneatonthorpe(proposed minehead); underneath 252 sq km of the NYMNP A(winning & working of minerals); a corridor extending underground from the edge of the NP boundary to Wilton International Complex(mineral transport system); Lady Cross Plantation near Egton, Lockwood Beck Farm near Moorsholm, Tocketts Lythe, near Guisborough(intermediate shaft sites); site within the eastern limits of the Wilton International Complex, Teesside(tunnel portal)
 Applicant: York Potash Ltd

I refer to your consultation on the above application.

The application is for full discharge of Condition 4, however, the documents submitted make no reference to the construction of the permanent 'ghost island right turn lane' on the A171 at the junction of the C82 to Egton. This omission should be addressed and the submitted documents amended or a partial discharge requested.

The phasing plan does not enable the timing of individual packages of work to be distinguished, the dates when the works will be undertaken to be established or identify all the conditions to be discharged prior to construction of the highway works. Whilst these matters can be controlled by other matters including the granting of Agreements under Section 278 of the Highways Act 1980, this control lies with the Local Highway Authority and sits outside the Planning Regulations.
