Plans drawn for all types of building work and all building regulation and planning applications etc. submitted to council.

Design and access statement for Stoneleigh and holly cottages at staintondale.

Design :- this proposal reverts these cottages back to their original state,ie. Two cottages instead of one dwelling with post office and small shop. There are no design factors to consider because there are no real changes externally and very little inside.

Access :-no real change all existing access doors are retained as they are.
