Mark

I have looked at the documents supplied by Sirius relating to NYM/0667/CVC. My comments are:

- The document on your web site has been superseded by that issue in 3 parts by Sirius.
- Page 60 of the 1st file requires amendment to reflect the restricted HGV routes permitted by the permission to clarify the limited use of the A169 and the A171 south of the B1416. I see no reason why this cannot be covered in the pre-S278 meeting to be held on Tuesday 17th and recorded in those minutes.
- All other matters are sufficient for discharge of the condition as it relates to highway matters on the understanding specific detailed information will be provided a minimum of 4 weeks prior to the Helredale Layby works commencing on site (anticipated Autumn 2017) and the Normanby Bend works (anticipated start to be confirmed by Sirius).

I will provide formal responses to the application when next in the office covering these matters but trust this informal notification will enable you to move matters forward.

Kind Regards
pam

Dear Mark,

Please find attached documents relating to condition 94 (CMS 2 of 3) for your consideration.

Kind regards,
Victoria Hill
