Dear Mr Hill,

**YORK POTASH NYM/2014/0676/MEIA NYMNP A CONDITION 93 – CONSTRUCTION ENVIRONMENTAL MANAGEMENT PLAN**

Please find enclosed documentation to support a request for a limited and partial approval of Condition 93 of North York Moors National Park Authority Planning Permission NYM/2014/0676 MEIA, exclusively relating to 'preparatory' highways improvement works (off site and adjacent to Dove's Nest Farm). This material has also been submitted via the Planning Portal PP-05248787.

The Construction Environmental Management Plan has been subject to consultation with Natural England and the Environment Agency and comments received have been taken into account prior to formal submission of the final document.

Sirius Minerals will provide further documentation in order to fully discharge Condition 93 prior to the commencement of development and acknowledges that the Authority's approval, when granted, applies to highways works only.

The information provided in this submission assumes that funding will be available for the project to meet its current programme.

If you require any further clarification on this request, please contact Robert Staniland, Sirius Minerals' Environment Manager.

Yours sincerely,  
William Woods

Development Manager
