Dear Helen,

Thanks for getting back to me and clarifying the wording on the website. I know of a few other people who have assumed that 'comments until' date is the deadline for *any* comments, not just from consultation letters to interested parties, especially as many people these days don't read the full paper notice (which presumably includes the public consultation date) and just look online instead. Perhaps the next time the website is updated, this wording could be changed / clarified; I know of people who haven't bothered to contact the National Park because they thought it was too late.

In relation to the NYM/2016/0707/FL application, I live opposite this house and don't personally have any objections to the proposed demolition and construction given the proposal uses local materials and is in keeping with the existing structure. My only concern would be if the proposal were consequently changed in size or design, as I know occurred with the new-build houses on the corner of Coach Road located behind 9 Eskdaleside. I am unsure of the implications of a larger structure on the houses adjacent to this property though, as this may affect their light and views.

Thanks,
Rebecca

Dear Rebecca

NYM/2016/0737/FL - demolition of existing single storey extension and construction of replacement part single/part two storey extension to rear at 9 Eskdaleside, Sleights

I have just returned to the office following a period of annual leave and note that you have sent an enquiry regarding the consultation period for the above application. Although there is a hand written note on the e-mail, it is not clear to me whether you have received a full response.

I am pleased to advise that you still have time to make a comment on the application as there are 21 days from the date displayed on the site notice (bottom right hand corner). As this notice was displayed on the 10 November, the closing date for comments is 01 December 2016. The date displayed on the website relates to letters of consultation sent to the Parish Council and immediately adjoining neighbours, which usually takes place well in advance of the Officer site visit.

I trust the above information is of assistance to you, if you have any further questions, please do not hesitate to contact me.

Yours sincerely
H. Webster
