

# Crazy Golf Course

Northcliffe & Seaview Holiday Parks

24 OCT 2016

## Theme

Each hole will be based on the titles of each of our Wildlife Walk lecterns – please see the file in the folder entitled 'Wildlife Boards' to see for yourself each title & the information displayed on the boards. We intend to use materials which will blend in with the surrounding landscape (i.e. green felt, green granite chippings, green fencing, etc.) & planting which will also be themed on each board i.e. the beach life & sea bird themed holes will be surrounded by plants which you would find by the seaside. The woodland creature themed board would have plants which you would find in local woodland such as ferns, etc. & so on.

24 OCT 2016

### **Introduction**

We propose to create a 10 hole crazy golf course on the playing field at Northcliffe Holiday Park. The course will be surrounded by galvanised & powder coated green wire mesh fencing & locked with a gate (the same as the approved tennis court). The holes will be constructed using concrete which will then be coated in green felt similar to the 'forest green' felt shown on page 13 of the Urban Crazy brochure (please see [the brochure](#)). The holes will be bordered with pre-formed concrete curbs similar to those shown on page 15 of the urban crazy catalogue. Most of the holes will have sculptures carved using a chainsaw from a local sculptor (based in Pickering). The holes will be laid out within a large square shaped border which will be edged with either wood or concrete pin curbs & filled with green granite chippings. We also intend to create mini rockery gardens in the spaces between holes. Each hole will be linked with a path using either paving or a different coloured aggregate such as blue slate.

### **Hole Design**

Please see attached some very basic sketches of how we visualise some of the holes to look.
