Dec 3rd. 16

Dear Mr Hill

In reply to your letter of 1st Dec

regarding the old chestnut of South Moor Farm's application for an 'aircraft runway in his fields', I am again stating my opposition to it on the grounds previously listed in my letters to you on the subject.

When are you going to refuse any further applications from this man, he has been pestering us in Buxley for the last 5 years on the subject, pretending he has backing from the FRIENDS of Buxley known as B.R.A. (Buxley Residents Association)

There is no such association in Buxley and several Giberston councillors informed me that he has lobbied them also, bringing the subject up at their meetings 2 years ago, stating he has backing from B.R.A.

I know these councillors from church and they queried me as to what this B.R.A.

thing was.

"No such association exists in
Berkley" I informed them and they then
told me I had better get in touch with
you because the man had launched another
appeal for his runways.

I wrote to you about it all and
received a couple of letters from you informing
me of his appeal date.

Please don't let him renew his appeal
AGAIN, this whole thing is getting very
tedious, he is just trying to wear everyone
down by his continuous regurgitating of
his original plan.

The whole thing is entirely unsuitable
for the area, dangerous to traffic on the
road beside the farm and also detrimental
to the archaeological sites of barrows and
their access along rights of way around
the farm.

Kirby Moorside Council closed the small
airfield down in that area, and so the
displaced pilots are desperately looking for
somewhere else to play dogfights, don't let
them take over our skies in Berkley, please.

Yours sincerely
