Dear Hillary Saunders,

Re: NYM/2016/0817/FL
Grass runway and pilot restroom at Southmoor Farm, Langdale End ,Scarborough.

Dear Hillary, it has saddened us to be once again in receipt of a planning application for Southmoor Farm, Langdale end. What makes this particularly unpleasant is that the eloquent and heartfelt presentations heard at the last appeal meeting have obviously gone unheeded. All made worse by once again, the application arrives just before Christmas. Very bad form. So for the record, here are our objections .

The core of the objections can be summed up by a wish to maintain peaceful enjoyment of the National Park by both visitors and residents. The aerodrome would introduce noise and disturbance to the peace and tranquillity of the Park. These issues are covered in length by the many comments you have from locals and visitors alike. The aerodrome is in no way consistent with the Core Policies (A and H) and Development Policies (14 and 23), as laid out by the Planning Authority.

The aerodrome would clearly compromise the fundamental nature of the National Park. The introduction of such a development is, and should be, unprecedented. Indeed, it is difficult to identify a beneficiary, other than the appellant himself. We urge you to refuse permission and end this matter once and for all.

The area of operation would encompass sites where protected species of birds are known to reside, including but not limited to Goshawk, Merlin Common Buzzard, Nightjar and Turtle Dove.

We wish the Park Authority to oppose this development with the same vigour as previous applications and appeals, you may be assured of continued support from the Bickley residents. If necessary we will oppose this wretched development until the end of time.,

Yours faithfully,
Mr. GE and Dr. JE Dixon.
