Subject: Application NYM/2016/0817/FL - SUPPORT

Sirs,
I would like to register my support for this application.
I am a private pilot who enjoys the unique privilege of using a light aircraft to allow me to visit beautiful locations which I would find it difficult / excessively time consuming to visit. North Yorkshire is not over endowed with airfields and is approximately a 5 hour drive from my home location. Too far to consider for a short weekend or overnight visit. This combination of an airstrip with onsite B&B facilities within a 1 hour flight from my home, make it especially attractive for a weekend visit.

I understand that some objectors quote a "negative impact on local wildlife". I would suggest that those persons have never actually observed any such negative impact and are simply assuming that it would occur. My home airfield, White Waltham near Maidenhead Berks, is home to one of the largest fleets of light aircraft in the country. It is also adjacent to both open farmland and woodland, yet it is also home to a large wildlife population including deer, rabbit, hares and Red Kites.

I urge you to approve this application,

Best Regards

Tom McCormack
