Subject: Comments on NYM/2016/0817/FL - Case Officer Mrs H Saunders - Received from Mrs Jayne Fountain at School Farm, YO13 0LN

I wish to object to this application. I feel that in bringing this application yet again, the applicant is waging war of attrition against the NYMNP authority and the local residents in what feels like an unacceptable abuse of process. I have lived in the Bickley area for thirteen years and have objected to previous applications for an air stop at this site, and have also spoken at the very first application of this type on behalf of local residents.

I have followed the decisions and appeal decisions. My main objection remains that to grant permission to develop and operate the facility described in Application NYM/2016/0817/FL would be a breach of the fundamental and overreaching statutory duty of the authority to conserve and enhance the natural beauty, wildlife and cultural heritage of this National Park as enshrined in the Sandford Principle. I am very aware of the extent of legally protected species in this locality. I feel that the evidence given in the application does not stand up to any scrutiny and the private commercial gain of one individual does not outweigh the protection of the natural environment in the park. I understand the the clear and statutory obligation of the authority in considering this application where there is a conflict is to give greater weight to the purpose of conservation and protection of the natural beauty and wildlife of our National Park. It is the primary purpose of this authority to uphold this duty and having done so for almost 70 years, it is the reason why this area retains its special qualities. I would like to see those qualities protected and undiluted not only for the continued benefit of the many, many individuals of this generation who cherish our National Park, but also for those generations yet to be born.

For those reasons I would ask the authority to once again to exercise it's clear and statutory duty and refuse this application.
