Subject: Comments on NYM/2016/0817/FL - Case Officer Mrs H Saunders - Received from Mrs Alison Fuller at 98 Outgang Road, Pickering, YO18 7EL

I object to this application because I think it will affect the wider landscape, quite enjoyment, peace and tranquillity and detract from the quality of life of local residents and experience of visitors.(Core Policy A)

This is a completely unsuitable place to have a grass runway because 1. it is in the middle of a forest, hence sight lines landing and taking off will be diminished. A plane taking off may have reasonable sight lines but a plane coming into land, even if they see someone, may not be able to abort the landing. 2. the Dalby forest has a lot of visitors; in particular it is a major mountain bike centre. The grass runway would be very close to the Dalby Forest road (vehicular), a car park for the disabled, a popular view point, rights of way and cycle tracks. Hence is there was a plane crash it could injure or even kill innocent people and perhaps set off a forest fire. 3. there is a bridleway that comes up from Little Stubby Head, across a field and then runs at the back of the proposed runway. It then joins a Other route with public access to come out near the Forest Drive. 10 landings and take offs a day will be noisy. Noise from a plane could cause a horse to bolt creating a danger to horse and rider. Development policy 23 point 2 specifically says that existing rights of way and other access is to be protected. 4. this is not sustainable tourism (ref Development policy 14). It is well known that aircraft emissions contribute to green house gases and thus climate change. There are other ways of getting to the National Park.

However if you do approve this application I ask that you make a condition that any right of way or any other route with public access running through the applicant's property on, adjoining or near the runway is not fenced on both sides for the reasons stated in point 3.
