York YO62 5BP

For the attention of Mrs Hilary Saunders

NYM/2016/0817/FL – South Moor Farm, Langdale End, Scarborough

With reference to the above application I would once more like to draw your attention to the fact the area concerned is the nesting, breeding and fledgling area of the Sparrow Hawk during Spring, Summer and early Autumn, which I presume is the time of year when this area would be most suitable for aviation as it would be in the daylight which would be to the detriment of this species. I would therefore request that this application is rejected.

Yours faithfully

Robert E J Howes MBE
