19th of December 2016

Dear Mrs. Saunders,

Re. Decision Number NYM 2016/0506/FL

Further to our recent meeting at Helmsley, I am writing to confirm the arrangements for the rear Velux Dormer Windows as per condition number 4.

Top element to be Velux standard top hung window but with a conservation style frame (Slate colour, as per enclosed sheet).

Recessed Flashing Kit to be used (again please see enclosed sheet).

The Vertical Element to be Velux with a matching Conservation Style frame in preference or alternatively an Oak frame to match the Top Element.

All side cheeks to be finished in Lead.

I look forward to hearing from you, all the best for Christmas and the New Year.

Yours sincerely,

Rob Rymer
