Afternoon Miss Webster

Thank you for your e mail.

The only concerns I would have are similar to those of John Woodhead regarding rainwater discharge and also the foundation design with its proximity to the cliff edge but both of these will be dealt with as part of the Building Regulations application.

I would imagine we will be asking for a structural engineers design for the foundations to include a survey of the cliff with regard to stability.

If you require any further information/advice please feel free to get in touch

Regards

David Morris BSc(Hons) MRICS
