Hi Jill/Planning

I've seen Natural England's response on this one, in which they advise that a Habitats Regulations Assessment will be needed for the NYM SPA/SAC. The letter provides the details of what will be required (top of page 2), so please can you pass this on to the applicant and ask if they can confirm the points raised and provide appropriate further detail?

Since NE also has concerns related to potential impacts on Biller Howe Dale and NYM SSSIs, it will be important to have a response from the applicant to the bullet points listed lower on p.2 as well.

Thanks, Rona
