Hi Jill,

I've had a look at the amended design and don't think anything has changed in terms of the number of parking spaces.

Previously, for the 3 bedroomed house, there was space for 2 vehicles, one in front of the other, now it is side by side but no change in quantity. For the 4 bedroomed house, it is exactly the same, 1 space.

My recommendation is therefore unchanged. However, if you think it might get approved, I would ask for a standard condition to be put on asking for the verge crossing on Thorpe Lane and dropped kerb to be constructed for the proposed access.

Ged
