having looked at planning notice and description. I fully support this application, as it will bring in much income to the area from visitors, and also provide work for people, as a shooting instructor I travel with clients and also teach groups, and the new facilities will be perfect for this, Shooting is an Olympic Sport, and places like this give people the chance to try the sports. it is important that we encourage new people all of the time to come and try in a safe comfortable environment, .. Yorkshire being the largest county in the UK but has limited shooting grounds that provide such high quality, so it is Important that Thimbleby Shooting ground can Build new facilities thus Providing even more opportunities for the Disabled, or those with limited mobility. This could then lead onto the ground hosting Charity shoots for the Local area raisng much needed funds and also host competitions which also generate income for the local area - hotels, B&B's shops etc.. so I can only see this application as a welcome bonus to Yorkshire.
