Subject: Comments on NYM/2017/0261/FL - Case Officer Mrs Ailsa Teasdale - Received from Mrs Susan Densley at S C & P J Densley Ltd, Ethamie Cottage, Thornton Le Street, Thirsk, North Yorkshire, YO7 4DS

My business has provided administration and accounts services to the Thimbleby Estate for over nine years. The addition of the Clay Shooting Ground to the diversification of the general farming activities of the Estate in recent years has provided a boost to our own company income as well as many other contractors living and working in the local area. The growth of the shooting ground has resulted in increasing numbers of people of all ages and abilities spending their time and money in the area, thus creating new jobs and encouraging investment.

To enable the ground to continue to grow and provide the quality of facilities required in a modern and environmentally aware rural business the shooting ground requires a much needed Lodge type building. The current cabin is small and inadequate in many ways, including security, storage, space and aesthetics.

In order to build on it's recent success as a viable part of the farming Estate the shooting ground will need suitable training areas for customers and staff, facilities for everyone, including children and those with disabilities, an attractive club house for visitors and a safe and secure environment in which to learn new skills and enjoy the National Park.

This new development will encourage tourism to the area, bring in new jobs and increase the work available to small contractors, like ourselves, who rely on a thriving rural environment in order to enable us to continue living and working in the Hambleton area.
