Dear Sirs,

I write regarding the proposed application for the removal of the existing clubhouse and the subsequent new club house due to the current clubhouse facilities not being adequate in the 21st century. I would like to encourage yourselves to approve this planning proposal.

As I am a current member of Thimbleby Shooting Ground and have been using the Club Grounds for a number of years.

My following points are;

- Representing positive investment in a rural business;
- Will secure much needed rural jobs and lead to much needed jobs in a rural are.
- Facilities for Disabled persons.
- Will create excellent facilities for locals and visitors in this rural sport.
- Will support the shooting industry in the moors as it will encourage more people to take part in our sport /hobby and improve their skills.
- Will really improve the facilities to an excellent standard and also meet the Needs of disabled people.
- The New facilities will allow people of all ages, abilities and disabilities to take Part in a rural sport / hobby.
- The better quality lodge/club house will ensure the shooting ground stays in business and continues to support Local tourism.
- Will be a real boost to local tourism and will support businesses in Osmotherley.
- Attractive well designed building which will fit in well with its natural surroundings.
- The new lodge is much needed as the existing building is not fit for the purpose.
- The new lodge will make for better safety and security all people using the site And premises.

Yours Sincerely,

P Moverley,
