5<sup>th</sup> July 2017

Dear Sirs,

I am writing to support the planning application **NYM/2017/0338/FL** and NYM/2017/365/LB..  
The rear extension is an admirable addition to the house in style, materials used and workmanship.  
The house is very narrow from front to back There is no depth to it, so this extension will give an ideal roomy place for outdoor footwear, wet coats etc necessities for living in the country and adding greatly to the comfort of a modern life.  
I may also add that the extension is not visible from the road and the front of the house so does not detract from the clean simple lines of the building.

Yours faithfully,

NYM/2017/0338/FL
