Ref Planning Applications NYM/20170338?FL & NYM/2017/0365/LB

I refer to the above planning applications for a porch extension to listed building to the rear of School Farm, Aislaby, Whitby.

The house is situated in the centre of the village, set well back from the road. The porch is an extension to the rear of the property and is not visible from the main thoroughfare of the village. There is no visual impact from any neighbours and it overlooks existing agricultural type buildings belonging to the property. It has been well constructed with building materials of the same stone as the main house with cast iron guttering.

I feel that the extension is in keeping with the existing property, both in appearance and construction and have no problem in supporting the application.

Yours sincerely,

Mrs. S. A. Dobson
