PLANNING APPLICATION NYM/2017/0593/R3

Dear Sir,

The proposed above application I fully support.

The A171 is a fast and busy road and the re-aligning of the South 2 North Bridleways to CR.838 087 will improve safety for horse riders, cyclist and walkers. Particularly Horse riders will benefit from this improved crossing. This is a very important and useful link for horse riders wanting to use the network of BWS on either side of the A171.

I fully support this applications as I know other horse riders will do also. I do hope that this application is successful. At present I would not be happy using the two BWS because of the time I would have to spend on the A171. Please keep me informed of developments.

Yours faithfully,
Chairman of Ryedale BW Group
and guide leader for Foundation.
Ride Yorkshire Federation.
