Good morning Alison

I think we can deal with this quite easily. This is an improvement which was discussed and approved by LAF when the working group was considering what needed to be done in the vicinity of the mine.

I will speak to the planning team as to how this can best be brought to members attention as part of the report to Planning Committee.

I will get back in touch if more is needed, but if you don't hear from me please assume that it is in hand.

Hope all is well with you

Richard

Hello Richard,

I have had an out of office email from Vanessa to 25th September so when she comes back that would not give enough time for her to deal with this. Can you or someone else deal with this?

Best wishes,
Alison

Subject: Planning item for the LAF

Hello Vanessa,

I would like to propose to the LAF that the LAF issue a letter of support for planning application NYM/2017/0593/R3. This relates to making a safer crossing of the A171 for walkers, horse riders and cyclists to better connect the bridleway at Moorcock Farm with the bridleway on the opposite (northern) side of the A171. Comments need to be in by 29.09.17.

What is the procedure to do this?

Best wishes,
Alison
