Dear Ailsa

**High Farm, Foss Hill, Ugglebarnby.**

**Application in respect of construction of slurry lagoon.**

Thank you for consulting us on the above application. We have no objections in principle to the proposed development from a planning perspective, however please make the applicant aware of the following:

The proposed development must fully comply with the terms of The Water Resources (Control of Pollution) (Silage, Slurry and Agricultural Fuel Oil) (England) (SSAFO) Regulations 2010 and as amended 2013. Environmental good practice advice is available in The Code of Good Agricultural Practice (COGAP) for the protection of water, soil and air (produced by DEFRA). The applicant is advised to review the existing on-farm slurry and manure storage and ensure compliance with the SSAFO Regulations.

The applicant must inform the Environment Agency, verbally (Tel: 03708 506 506) or in writing, of a new, reconstructed or enlarged slurry store, silage clamp or fuel stores at least 14 days before starting any construction work. The notification must include the type of structure, the proposed design and construction, and once an agreed proposal has been constructed we will ask you to send us a completed WQE3 notification form before you start using the facility.

Further guidance is available at:

[Storing silage, slurry and agricultural fuel oil](#)

[Protecting our Water, Soil and Air: A Code of Good Agricultural Practice for farmers, growers and land managers](#)

If I can be of any further assistance, please don't hesitate to contact me.

Yours sincerely

**Nick Beyer**
