**Your Ref:** NYM/2017/0784/FL

Date 23 November 2017

Dear Mrs Saunders,

**Proposal**      **Application in respect of retention of development not in accordance with NYM/2015/0019/FL comprising field access and cattle pen at Sievedale car park, pay stations at Ebberston, Pexton Moor, Sievedale car park & the Visitor Centre car park, pole mounted cameras, satellite dish on**

**Location**      **Dalby Forest**

Many thanks for giving North Yorkshire Police the opportunity to comment on this planning application.

Having reviewed the accompanying documents that were submitted with the application, in relation to

Designing Out Crime, I would make the following comments:

1. In relation to the Pay Stations I would refer the Authority to comments made in my previous response dated 5/2/2015 (copy attached)

2. It is pleasing to see that CCTV is to be installed at both the Pexton Moor and Ebberston sites. I would

remind the Authority that any CCTV system installed must meet the standards required by the Data Protection Act 1998, which states that data recorded with the purpose of identifying individuals

performing criminal activities must be of sufficient quality to do so, otherwise its capture is unjustified.

Therefore, there may be a need to have suitable compatible lighting installed to ensure that there is no

loss of picture quality or colour rendition.

NYMNPA

I have no other comments to make at this time.

Yours sincerely

Mr Mark Roberts

Classification: NOT PROTECTIVELY MARKED

Our Ref 053-1/2015 MR

Your Ref NYM/2015/0019/FL

Date 5 February 2015

Dear Mrs Saunders,

**Proposal**                      **Revised access arrangements, erection of larch clad shelter and installation of satellite mast (max height 5 metres) with associated cabinet at Pexton Moor, creation of new access to the north of Pexton Moor, revised access arrangements and installation of satellite mast (max height 5 metres) with associated cabinet at Ebberston together with creation of new car park, link footpath to the visitor centre and field access and cattle pen at Visitor Centre Sievedale at Dalby Forest**

In relation to the above application my only comment would be in relation to the security of the "Pay Stations", as due to the isolated location of these, they could be vulnerable to attack. It would therefore be advisable that they are emptied on a regular basis and that clear signage be displayed to indicate that there are low levels of cash left inside the stations. Any emptying of the stations should be done at varied times to reduce the likelihood of potential offenders being able to establish the pattern when they are emptied, in order to enable a "cash in transit" foray.

With this in mind, the Authority may wish to place a condition on any grant requiring the applicant to submit written details on what crime prevention measures are to be incorporated to protect the "Pay Stations".

Regards
