Hi Hilary – Could you please forward this email to whichever of our colleagues are dealing with the following applications:

NYM2017/0793 The Priory Grosmont – This development appears to include a small extension to one of the Priory outbuildings but the plans supplied don't seem to show precisely which one or where? Given that the remains of a Medieval Priory underlie the eastern side of the site (at very least) there may be a need for archaeological mitigation even though the application is for a very small area. Clarification would be very helpful.

I am hoping to be in the office next next Thursday (depending on what the weather does).

Many thanks  
Graham

Graham Lee
