Dear Sir/Madam,

ESN & EE UK LTD:

FULL PLANNING APPLICATION AT:

LOW SEAT, HARWOOD DALE, SCARBOROUGH, NORTH YORKSHIRE, YO13 0LB

The Home Office-led emergency services mobile communications programme provides a basis to develop a new 'blue-light' communications service known as the Emergency Services Network (ESN).

EE Limited have been selected by the Home Office to provide the resilient national mobile network and appointed a number of agents including WHP Telecoms (WHP) to support site identification, acquisition and planning approval services to extend critical site coverage across some of the hard-to-reach areas of the UK. This site is critical to the Emergency Services Network programme.

We write on behalf of EE to make a formal full planning application for the proposed installation of telecommunications apparatus at the above location. EE (UK) Ltd is a licensed operator of an electronic communications network in accordance with the Communications Act 2003. It is obliged to provide a mobile telecommunication network in the United Kingdom and to meet all reasonable customer demands.

Please find below a description of the development:

Proposed 15m Swann 30H Lattice Tower on a 3.6m x 3.6m x 0.8 dp concrete base and associated works.

The location has been identified as being necessary for EE business development and meets its specific technical and operational requirements. We now make a formal application to you as planning authority. The telecoms equipment could be tackled via a GPDO submission but a FP application has been submitted to capture the new access track.

Please find enclosed the associated application package comprising: -

- Required number of copies of completed planning application forms (Part 1 and 2);
- Required number of copies of associated Planning Drawings Ref: ESN7028 with the proposed site outlined in red; (See red lining of access track on page ESN7028 02A)
- Required number of copies of the Statement made in support of the application which contains the following;
 - ICNIRP Certificate.
 - Radio Coverage Plots
 - ZTV
 - Wireframes
 - Photomontages (to follow)
 - General supporting information regarding operation of networks.
 - Cheque of £ 385.00 to follow, once requested.

We trust this will be acceptable and look forward to discussing the merits of this proposal with you in the near future. In the meantime should you require any additional information or have any queries relating to this application, please do not hesitate to contact (Damian Hosker BA (Hons) MA MRTPI) at the above address.

Yours Faithfully,

(Damian Hosker BA(Hons) MA MRTPI)
Principal Planner
