---

Dear Ailsa,

I will be working with Rona on a 1 day per week basis for the next few months to assist with the Ecology Work, and thus have been looking through the current planning applications for comment.

With regards to application number NYM/2017/0807/FL at Lowdale Hall, Sleights, we have a record of a locally rare plant *Epilobium roseum* close to the access track for the Hall. We would therefore request that if permission is granted, that a condition is included to ensure that all reasonably practicable measures are taken to ensure the verges of the access track immediately to the north of Lowdale Hall are not disturbed during the construction of the garage and associated vehicle and parking areas.

Many thanks,

Elsbeth
