Hi Hilary,

The clients have provided a brick sample as the attached for the above development. Ibstock Old Colliery 2716.  
It is quite a nice finish with some variation in the colour so we think it will look good.

Would you like the sample board next time Tim or I see you?

Kind regards  
Neil

Choose from the UK's most popular range of bricks because:

- All our brick factories are rated 'very good' under BES 6001, the Standard For Responsible Sourcing and have BS EN 14001, the Environmental Standard. Istock are the first brick maker to achieve ISO 50001, the Energy Management Standard.
- We make the widest range of bricks in the country.
- Nationwide coverage from 19 factories means our average delivery mileage is kept to a minimum.
- Our bricks are a prudent use of natural resources, incorporating a high recycled content.
