Dear Jill

Please see attached from Scarborough windows. They are the manufacturer.

The quote by Centurian previously sent shows windows as a design of where the transoms, openers are etc and is default. The writing on the right indicates that they are Flush.

I hope this covers it for you? However, please let me know if you need further clarification?

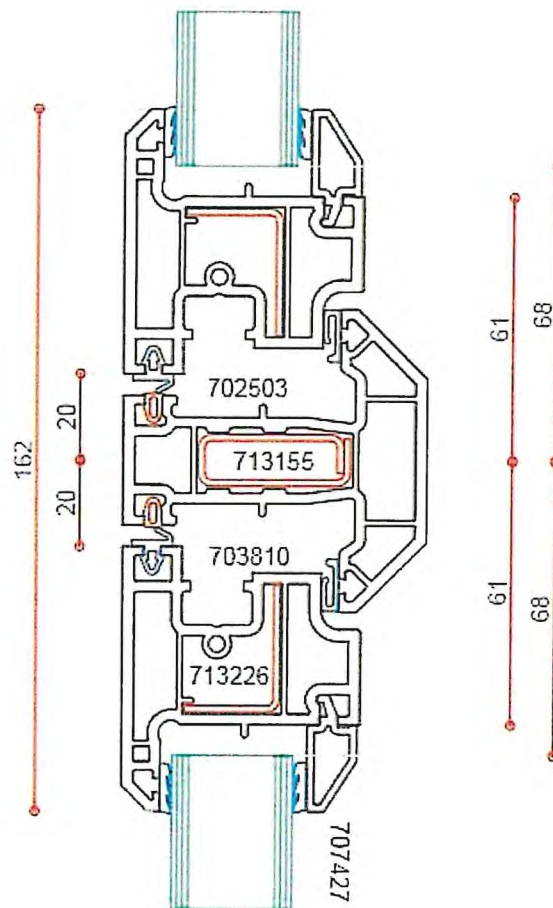

Many Thanks
Dave Render

AMENDED

AMENDED

Notes

Hi Jill

Thank you very much for your time today, and your patience. It was very much appreciated.

With regards to the new proposed profiles, please see attached. The only difference to quoted is the colour of the colour of the door, not cream but as previously discussed.

Hope this gives you what you need. Please let me know if you require any additional information?

Best Regards
Dave Render
