Dear Hillary

I would like to strongly object to this planning application for a number of reasons. As other applications have been refused previously due to over commercialization why would this one be allowed. The village is already supplied by a plentiful amount of places to eat which are all well established in original buildings. The area suggested is a well loved area of the village by residents and tourists and would not benefit by the location of more bins which the council don't have resources to empty and the smell of cooking fat. With the location of the planning application notice being not obvious and the conversations that local shop and restaurant owners have had with the applicant I frankly find this an under hand and selfish thing to be considering with only a monetary self gain in mind. If this person wants to run a beach front eatery then apply to do so in Brighton or some other kiss me quick hat selling area. It seems to me that this isn't being proposed for the good of the village but just to the financial gain of the applicant but then again it won't be the first time that an in comer with financial bearing has come into the village and tried to run it like they own it..they dont
