I would like to strongly object to this application on the grounds that myself and the national parks, have been mislead, by statements made by the applicant Graham Kemp regarding my support for his application. Firstly, he approached me approximately 2 months ago and we had a casual conversation about him opening a kiosk which he stated would be selling only teas and coffees. He was also very vague about the location of this kiosk. He asked if I objected to this and on the terms he had stated I replied informally that I didn't. At no point did he ask if he could use me in reference for his application and I have since learnt that he intends to sell hot and cold food, which he neglected to tell me, from his intended business, that will also incorporate seating. From the discussion we had, he mislead me on the scale and the nature of his business plan. In my opinion, Robin hoods Bay, which people visit due to its unique quaintness and timeless charm, is being overrun with commercial businesses that are more about profit than keeping with the feel and beauty of this Wonderful village.

A commercial food outlet kiosk in this intended location would in my view, be an eyesore on the landscape as well as having a negative environmental impact due to potential littering of the beach area as a result of discarded food packaging.

I would once again like to reiterate, despite what mr Kemp has otherwise claimed, that I strongly object to his proposed commercial project.

Yours sincerely

David Shackleton.

proprietor of the coffee Shack and local resident.
