Subject: Removal of document from planning application

Hi Wendy,

Re Application - NYM/2018/0177/FL

I attached a document [public nym2018-0177-fl additional information 26-03-2018.pdf](#) to the above planning application, which I would now prefer to be removed.

I stated in the additional information that **most** people I had spoken to were in favour of the proposed application. Progressing down the statement, I clearly listing the feedback from named people; giving positive, neutral and negative remarks. This now appears to have been inappropriate and had a negative effect on my application.

It transpires, because I named certain people, some are receiving peer pressure for openly voicing their opinions. I informed local people and businesses of my proposed Tea Hut, wholly out of courtesy and politeness, so it did not come as a surprise when the application was submitted; this in retrospect was a mistake and I would prefer to remove the above document from the planning application.

If you feel it appropriate to replace the document with the contents of this email, please do so; the last thing intended was to offend local people and friends, with whom I live and share this lovely village.

Kind regards

Graham Kemp
(Director – Ghyll Wood Developments Limited)
