I wish to object to this application as i feel this would be an over commercialisation of the area and possibly effect the residents. You can see clearly from the photos that the hut is not in the exact same place as it would have been under a concrete block and it was only a temporary summer structure. The area that is to be dug into is a clay cliff and could effect the properties and land above. Also how does the applicant plan to get machinery, diggers, the hut, gabion baskets, stone, gravel and trucks to remove spoils up to the site and the spoils away is it to be over council owned land and private land where members of the public and children may be playing? How will deliveries be made? The site is a lovely area with memorial benches and there are plenty of local owned refreshment businesses and i see no need for a new one that will add more traffic and litter to this wonderful village.
