Mark

As promised, I attach the s106 offer letter and a plan showing the area of influence likely to be affected by the re-injection of water from the two well sites.

Regards

1st May 2015

Dear Mark Hill,

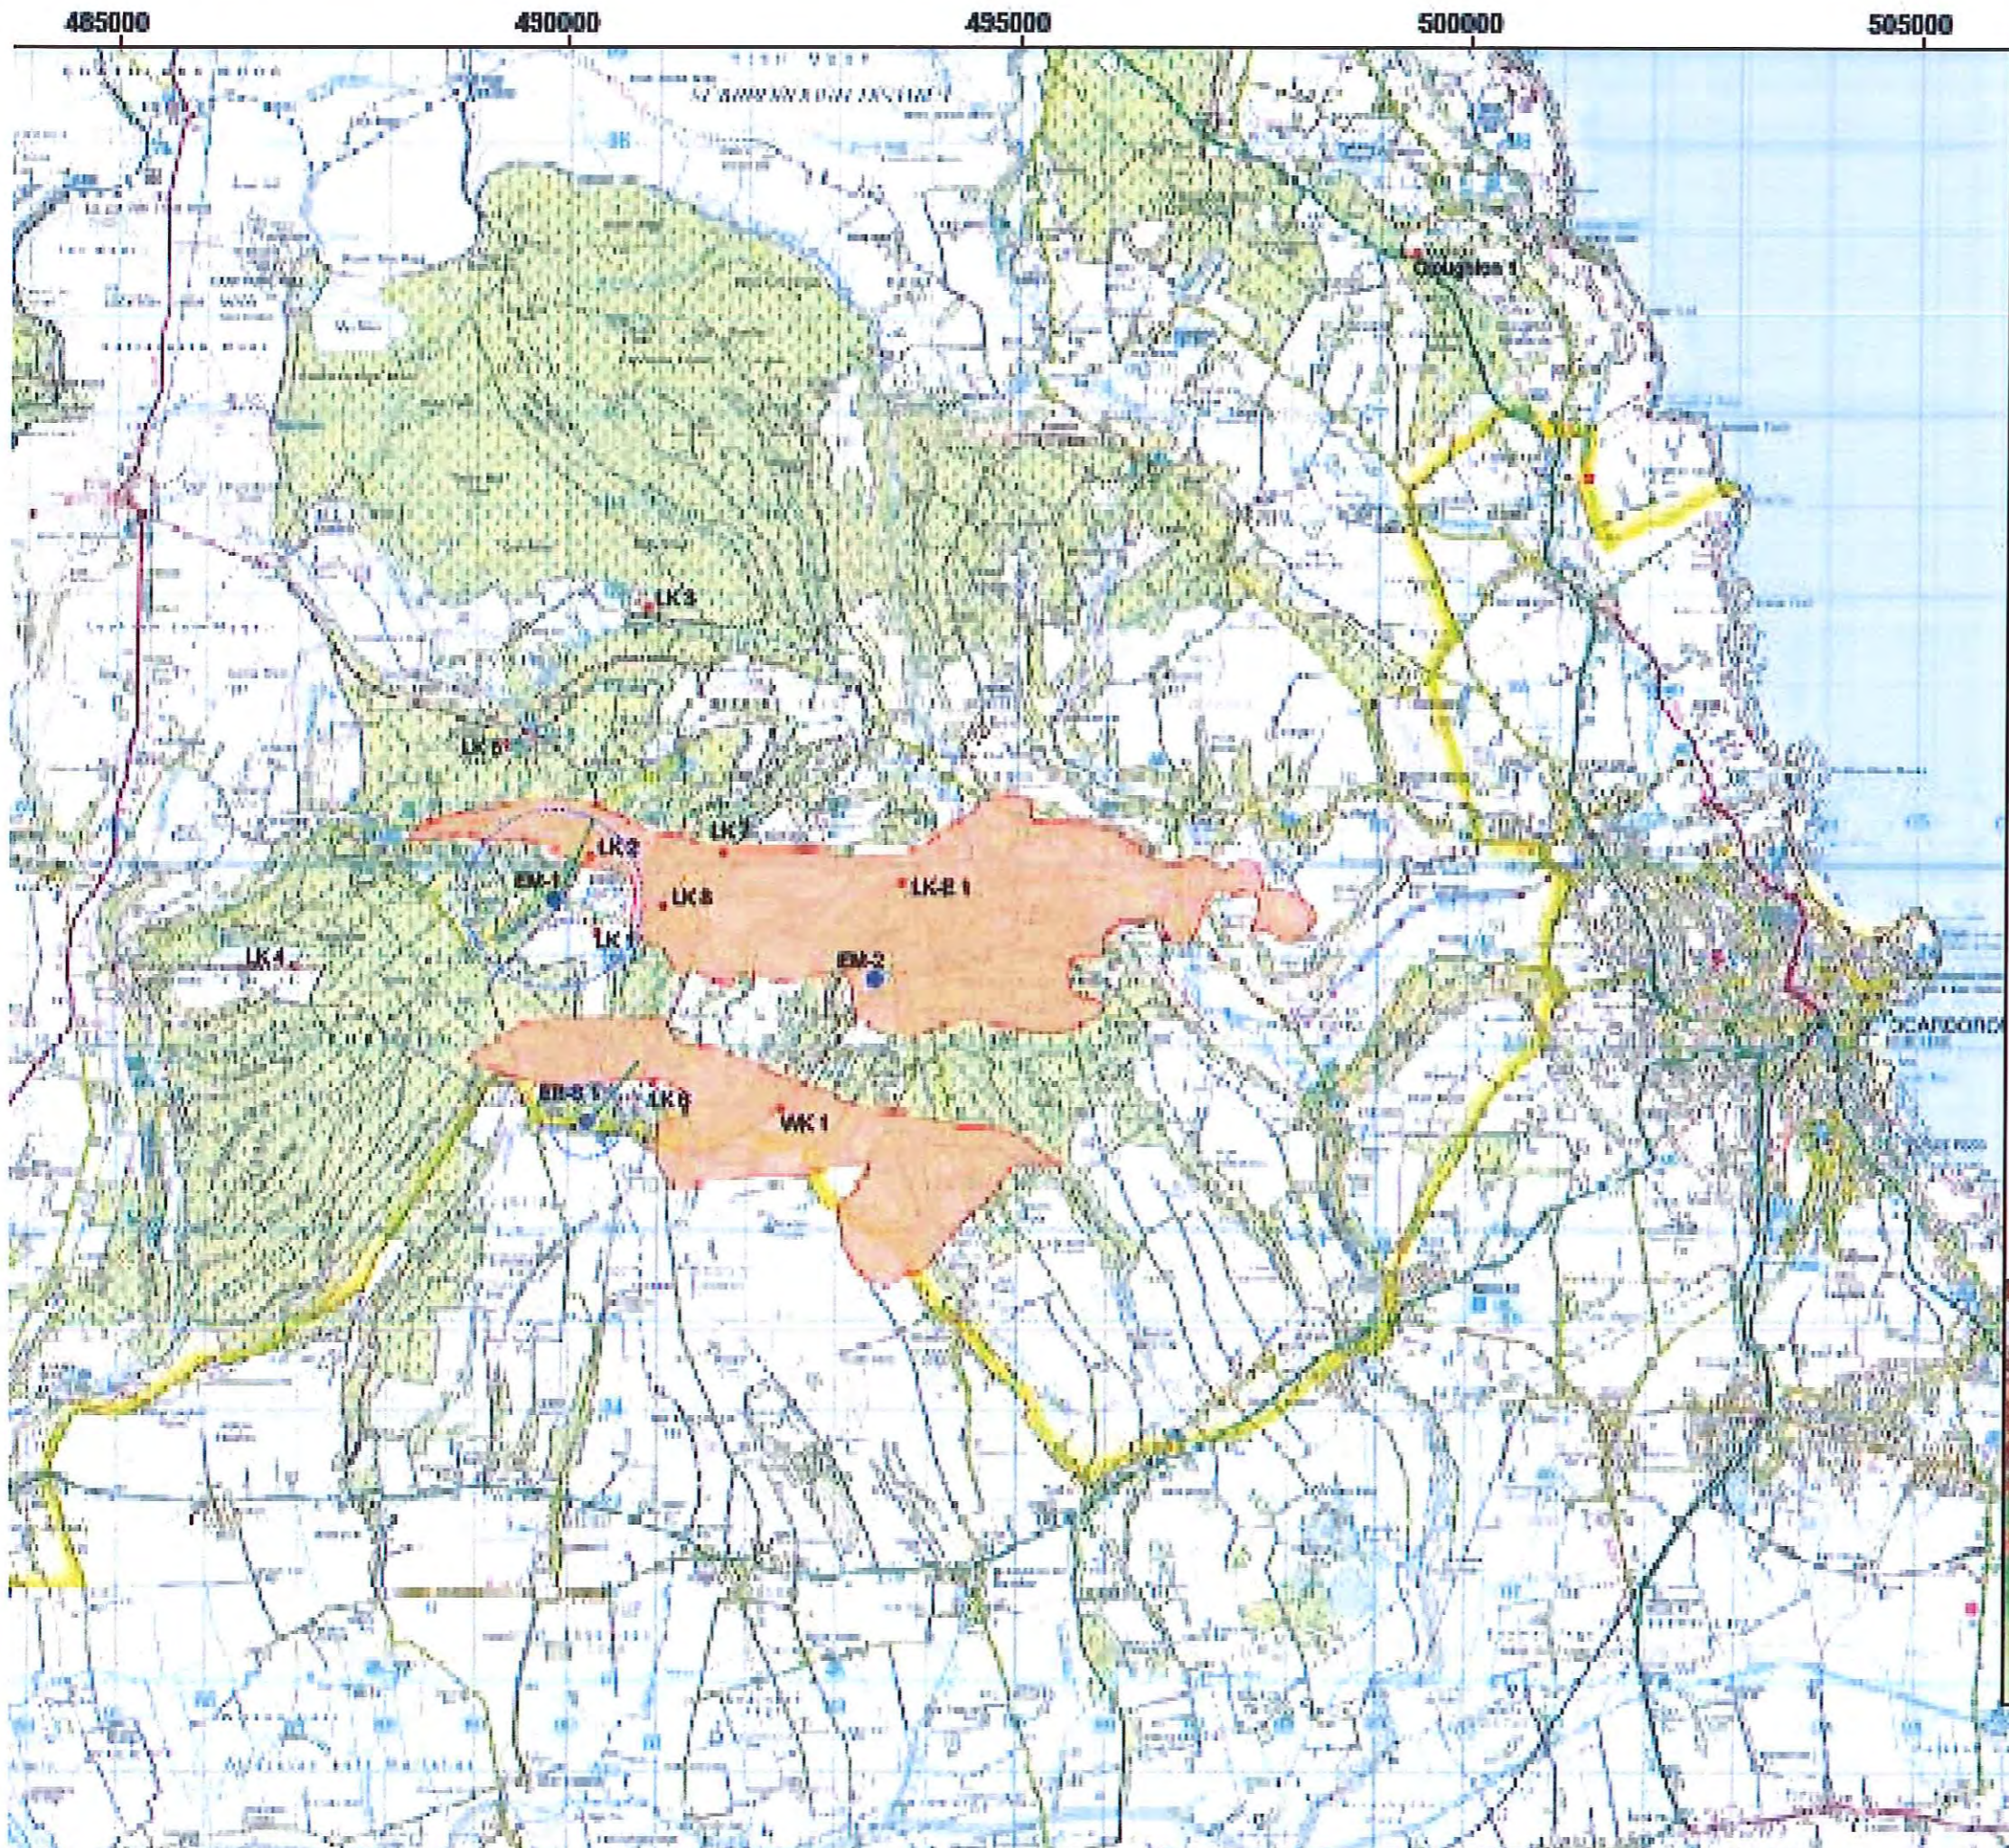

**RE: Planning Application Ref: NYM/2014/0587/EIA - EMS-Knapton gas pipeline
Section 106 Agreement**

We are writing with reference to the planning application NYM/2014/0587/EIA and in particular to the planning obligations under Section 106 of the Town and Country Planning Act 1990.

Following further review of the proposed scheme, Third Energy can confirm that, subject to written planning consent of the aforementioned, issued by the NYMNPAA, that we will contribute the sum of £10,000 (Ten Thousand Pounds Sterling), as a one off payment as an 'offset', in lieu of the environmental impact sustained within the National Park due to the construction activities. It is proposed that the 'offset' sum shall only become payable when the first day of commencement of the construction thereof.

Yours sincerely,

John Dewar
Director
Third Energy UK Gas Limited
