Dear Mrs Farnell

Re: The Moorings, Mount Pleasant East, Robin-Hoods-Bay

I write in reply to your letter of 28 June 2007 concerning the above. I believe I now have all the information you require, as follows:

- 1 Four copies of a location plan are enclosed, with the boundaries marked in red and blue.
- 2 Two copies of the agricultural holdings certificate enclosed as requested.
- 3 With regard to the Design and Access Statement, four copies of two sets of plans are enclosed. These show the roof as it was prior to being replaced, with details of size, scale and buildings materials. There is then a plan showing the replacement roof with the same information.

The original roof was flat and in grey felt. This has been replaced by a red tiled roof, which is now pitched to allow rainwater to run off it. The size of the building is exactly the same as it was before - the walls and access door have remained the same. The difference is that the new roof has been pitched - at the front it is the same height as before, but at the back it is higher.

The access to the building is as before - there is a door at the front which is still there, and has not been altered. There is one door only with access from the main driveway of the property, and this has not been altered in any way. Access to the whole site has also remained the same, and this is shown on the plans. Access is from a shared driveway in Mount Pleasant East - this remains the same.

The only work which has been done is to replace the roof, with red tiles instead of felt to improve its ability to keep out the rain. For this reason also the roof has been pitched towards the back.

The building does not involve public access.

I hope you now have all the information you need.

Yours sincerely

Anne Williamson
