Design Aspects for goat shed and holding pen.

whilst planning and undertaking construction of our Goat Shed and holding pen, we planned an average floor space per 2 adult animals to live comfortably including an outdoor shelter, as the animals dislike rain.

Inter floor space being 3 Metres - 2.1 metres. Outer space being 3m-2m

When choosing materials, we used matching timber (locally sourced to our other shed and fencing, which after preservation treatment, naturalizes quickly. At the adjoining boundary to our 'neighbour' at No 3 we have put a secure fence to protect her' property from damage by the goats.

Crime prevention measures (as the animals will be of high quality breed and expensive to replace - they will be ~~sep~~ separately insured) will be padlocked during the night.

Scale - Height - 2.2 metres
width - 2.1 metres
length - 6 Mts.

landscaping - Due to our already mature gardens - we scaled the Goat Shed and pen to be almost hidden by our existing planting.

Appearance Using local larch (unplanned) for a natural look - will be preserved in a dark colour ~~at~~ which naturalizes quickly

Access - No public access necessary - our own access from our back door to our own garden through a gate.
