Appendix D – Design and Access Statement

A) Dormer Window to the front of the property

The dormer window is rotten in parts and the flat roof is approaching the end of its life. The dormer is being replaced like with like in all respects with the exception and addition of a sloped tiled roof (specifications in appendix F) that will run from the edge of the dormer to the pitch of the roof. I believe that this will be in keeping with the surrounding properties and be an improvement to the Robin Hoods Bay skyline

b) Skylight\Velux to the rear of the property

The Skylight\Velux will provide the following improvements

- a) Creation of a fire escape from the attic bedroom to the raised land at the rear of the property (an internal escape ladder will be installed)
- b) Creation of additional ventilation in what is a very humid and damp part of the house
- c) Creation of an additional light source within the attic bedroom

As the rear elevation photo in appendix B shows the existence of velux\skylights and dormer windows are prevalent at the rear of the surrounding properties and I believe the proposed type and dimensions of the proposed window is in context with these surroundings.

Specification of the proposed window is described in appendix E

NB The height and position of the skylight is suites the internal layout of the beams within the roof space. The model chosen allows for ventilation even when the window is shut.

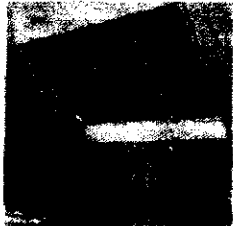

General comments

I have owned the property for nearly two years and am acutely aware of its position, history and its status. I have spent a significant amount of money to date preserving the timbers, internal decoration and structure of the property where the Victorian interior remains largely intact and will remain so.

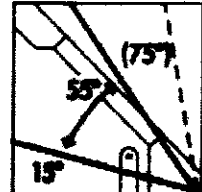

Appendix E – Manufacturers Specification leaflet for Skylight\Velux window

Velux window specifications – NB the proposed model is the 78x98 M04

GHL pine finish

- Perfectly suited to shallower pitched roofs.
- Powerful yet gentle springs make it easy to open.
- Opens to three set positions: 5°, 15° and 30°.
- Bottom handle for convenient opening.
- Top control bar allows background ventilation even with window securely closed.
- Rotates 180° for easy cleaning of outer pane.
- Pine with triple coat finish.
- 10 year VELUX guarantee.
- Clear and clean coating now standard on 3073 variant. Keeps windows cleaner for longer.

• For roof pitches from 55-75°, please specify special springs when ordering.
