1.0 GENERAL

1.1 The scheme is based on improvements to accessibility in and around the school.

The main elements of the scheme include:

New Bin Store	Drawing D9610-03
Disabled Parking	Drawing D9610-03
Concrete Path	Drawing D9610-05
Handrails to Existing Path	Drawing D9610-05
Disabled Access Ramp	Drawing D9610-06

2.0 PROPOSALS

2.1 New Bin Store

To enable the new disabled parking bays within a very restricted site it is necessary to relocate the bins which currently are not covered by sit on an area of hardstanding.

The proposed site for the new store is close to the vehicular access point for convenience of collection. The site is also obscured from the north by the rising ground levels.

The store will be clad with a naturally finished sawn timber to give a soft unobtrusive appearance.

2.2 Disabled Parking

The new disabled parking bays are being provided as part of the overall improvement of accessibility for the whole school site.

The location for the bays uses the existing access with only limited alteration required for new Tarmac.

2.3 Concrete Path

This new concrete path will run between the 2 pedestrian area. The space proposed is currently used as a short cut across the grass.

2.4 Handrails

These are to be provided to make safe the existing access to a classroom.

The existing path has steep sides which are a potential hazard. The handrails will remove this.

2.5 Access Ramp and Exit Door

The area to be served by the ramp is a secure play area for younger children. Currently the only access from the school buildings to this area is via steps. Therefore to enhance the schools inclusive policy the disabled ramp is necessary.
