Dear Sirs

Please find application for change of use and a new larger window.

I am not sure how to class the proposal other than a "Summer House". It will be used as an ancillary room to our cottage - (EVA COTTAGE) which is approx 50mts away on Chapel Street. It will be for our own use and not made available for letting in any form. It's use will be similar to a conservatory - ie for sitting in and reading.

The second proposal for a larger window is so that when my wife and I are sitting in the room we are able to take in the fantastic view of the beach and Seavus. We are now both 60 and are looking to take life a little bit "easier" and are hoping to spend many happy hours in this room.

Finally as your web site does not cover the above in your chart of fees I have enclosed a cheque for £70 for initial investigation and anticipate you will inform me of any extra fees required.

Yours faithfully
