" I would like to comment on the extra traffic this extension would cause. Since the conversion of the garage to do b + b I have noticed a considerable increase in the amount of traffic e.g. at least two packhorse vehicles and delivery vans every day." As you are probably aware "the road leading to Hollins Lodge is a private road and unadopted and therefore all privately owned of which I own the largest amount and therefore this means I have the most to maintain! .Hollins Lodge has a limited parking area and no turning area for the above mentioned vehicles causing them to reverse and turn elsewhere e.g. my drive (already two incidents have occurred causing damage by these vehicles). Therefore I feel any further increase in traffic which the proposed plans will incur is unacceptable."

Yours sincerely Mr David Helm
