

**DESIGN & ACCESS STATEMENT**

**FOR**

**FOR EXTENSION TO SHED**

**AT**

**HIGH FARM, UGGLEBARNBY.**

**INTRODUCTION**

High Farm is a dairy holding. The dry cow shed requires extending to provide additional cubicles for an additional number of animals out of milk.

The existing shed is a portal framed building with Yorkshire boarding and concrete blockwork wall, and fibre cement profiled roofing, and measures approximately 13.7 x 8.2 metres.

**DESIGN**

The design is intended to extend the existing form and materials to provide an additional 9.15 x 8.2 metre floor space, as such the extension will have an additional two portal frames,

**ACCESS**

Access to the proposed areas will be from the existing farm yard area and no new access points will be required
