With its unique embossed graining, the UV-resistant synthetic foil coating on the outside of the steel sections conveys the authentic character of timber. The special surface protection on Decograin® doors preserves the appearance of the door over a long time.

Decograin® Light Oak // NEW
Light, warm oak design

Decograin® Dark Oak
Walnut-coloured oak decor

Decograin® Rosewood
Mahogany-coloured timber decor

Decograin® Golden Oak
Medium-brown, golden-yellow oak decor

Decograin® Night Oak // NEW
Dark, intense oak design

Decograin® Titan Metallic // NEW
Anthracite with a metallic effect

X = preferable to Golden Oak

Six charming styles

Decograin® surface finishes

Detailed, natural timber look or Titan Metallic elegance, combined with all the advantages of a steel door: The Decograin® surface offers a charming appearance in six modern decors.

The inside of the decograin steel doors is generally grey white (RAL 9002).

The colours and surfaces shown are subject to the limitations of the printing process and cannot be regarded as binding. Please seek the expert advice of your Hörmann specialist dealer.
