

Design & Access Statement Kingston Field Playground

The items chosen for the playground are all from the manufacturer Kompan. The playground has been designed to have distinct areas for different ages of users. The top of the playground adjacent to the chapel is for younger children & consists of traditional swings, climbing frame (storymaker) & spinner bowl. The area in the middle is for any age group & includes a nest swing & roundabout (supernova), whilst the area furthest from the chapel at the bottom of a slope is for older children. This has a larger climbing frame (rigel) and skateboard simulator (skate).

The materials are as follows:

Cradle swing, metal & HDPE.

Storymaker, metal & HDPE.

Spinner bowl, metal & HDPE.

Supernova, metal & HDPE.

Nest swing, metal & HDPE.

Rigel, metal & HDPE.

Skate, metal & HDPE.
