

**VGUARD**

Fencing details / brochure

The most cost-effective mesh product available, ideal for basic demarcation applications. A rigid panel system with integrated profiled-beams, supplied complete with all the necessary components.

VGUARD has been designed to add an aesthetic appeal to our mesh fencing product range, a high performance system complete with excellent appearance..

**Standard Sizes**

Panels				Posts				
Fence height mtrs	Panel size H & W	Wire diameter V & H mm	Number of beams	Post centres mm	Total number of fixings			
					Inters		Corners	
					Profix bracket	Hanging bracket	Profix bracket	Hanging bracket
1.8	1733 x 2605	5mm	3	2520	5	1	10	2
2	2033 x 2605	5mm	4	2520	6	1	12	2
2.4	2433 x 2605	5mm	4	2520	6	1	12	2

Heights above the standard range can be achieved using a multi-lift system.

**Panels**

Manufactured using 5mm wire welded at each intersection complete with inserted beams creating a strong and durable panel, the mesh aperture consists of a 200 x 50mm mesh spacing providing excellent see through visibility!

**Post System**

Standard posts are manufactured from 60 x 60 x 2.5mm Rolled Hollow Section. All posts include threaded inserts, leaving a clean and flush design to the rear face. Specially designed PROFIX Securing system brackets are used for quick and easy installation.

**Applications**

The VGUARD system is suitable for most applications where general site demarcations is required typical examples are uses in schools, public areas, commercial businesses & retail outlets.

**Gates**

Standard gates are available or tailored-made to suit your requirements. All gates are supplied with rear hung adjustable hinges, pad-lockable drop-bolts, multi-holed to suit site conditions complete with anti-climb PROTECTORGATE slide latch. See our gate range for further details.
